# 1. Introduction

Inspired by modern flat design style, **Matrix theme** was created to bring about the best look and mobile optimized experience for all of your customers who use smart phones and tablets for shopping every day.

Like Matrix, like magic, this theme allows you to showcase your featured products and categories with a glorious layout as well as any subtle details of checkout page, product listing, etc... to catch the eyes and hearts of customers when they are on your app.

## **Outstanding features:**

- ✓ Work with Android, iPad, iPhone.
- ✓ Easy to search/ sort for products
- ✓ Grid layout, 2 products per row
- ✓ Banners/ categories/ spot products slide on homepage.
- ✓ Link banners to other URL
- ✓ Allow configuring categories in homepage.
- ✓ Allow configuring spot products in homepage.
- ✓ Allow managing banners

This user guide will instruct you to install and configure Matrix Theme to utilize all of its advantages and beautify your app.

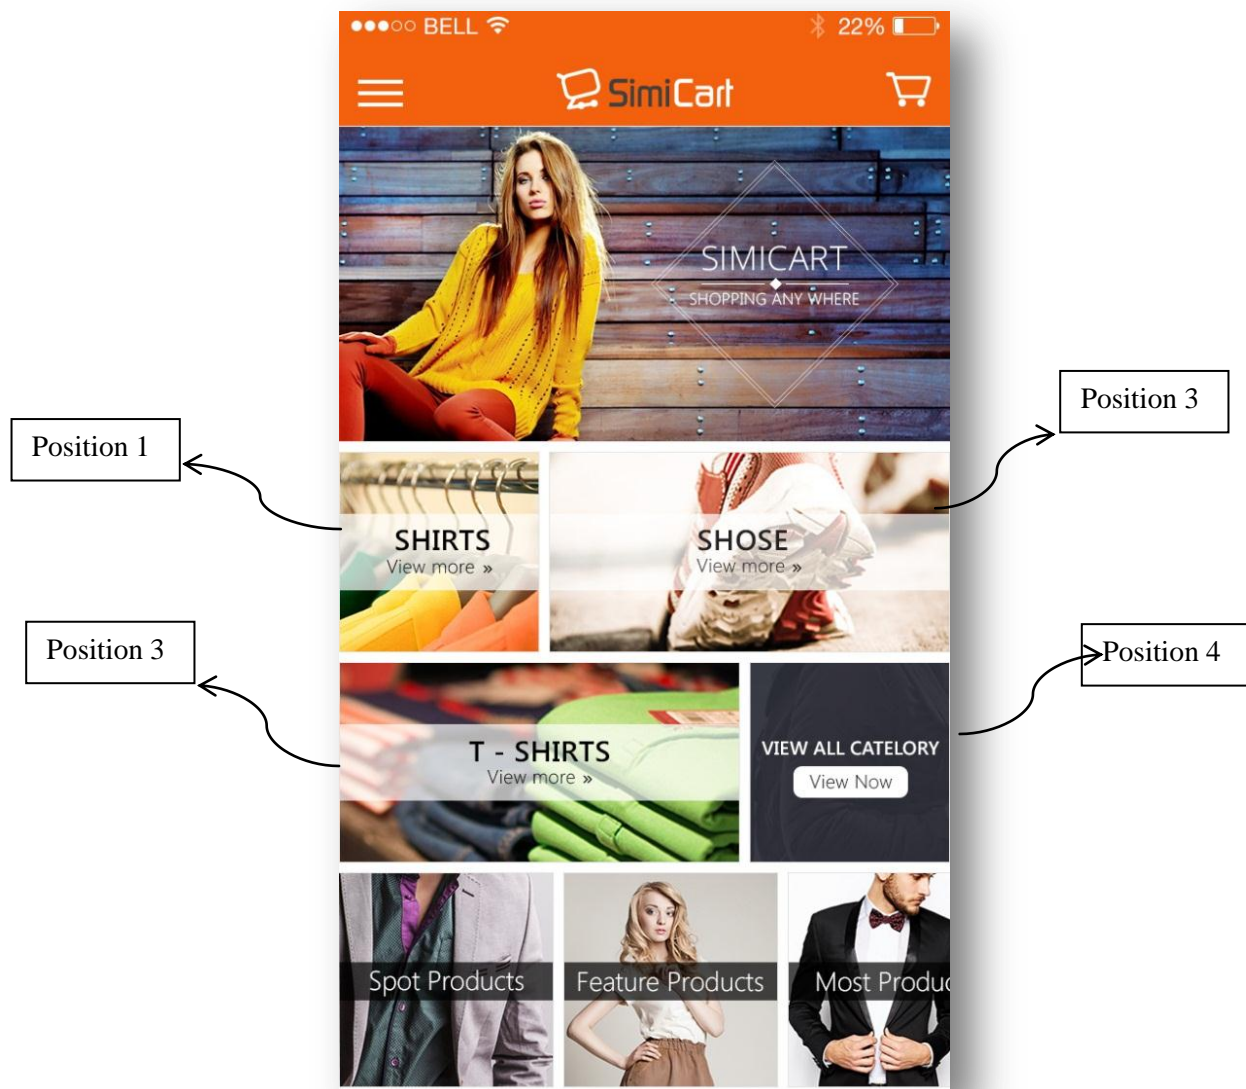

## 2. How to install

1. After purchasing plugin, you will be directed to App management page. Go to **Install Connector** tab; download Matrix theme, which is a zip file.
2. It is required to enable cache in the administration panel of your site. Go to System/Cache Management. Choose all caches and take action “Enable” then submit.
3. Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
4. After uploading is done, log in your Magento administration panel to refresh cache. Go to System/Cache Management. Select all caches and take action “Refresh” then submit.
5. Navigate to System/Configuration, if you can see the extension tab, it is installed properly.
6. Now if you get Access denied error when click on the extension tab, you need to log out admin panel and log in again.
7. Open the app and test your work.

## 3. How to configure

### 3.1. Manage Category

In this theme, there will be 4 categories associated with 4 positions shown in the homepage as below. The 4<sup>th</sup> will show all categories.

To configure categories in homepage, please go to **SimiCart Connector -> Matrix theme -> Manage Categories**

Categories Manager

Page 1 of 1 pages | View 20 per page | Total 4 records found

Reset Filter Search

ID	Name	Position	Category	Action
1	Position 1	1	Build Your Own	Edit
2	Position 2	2	Apparel	Edit
3	Position 3	3	Bedroom	Edit
4	Position 4	4	View All Category	Edit

Click on the Position you want to edit. Below is Position 1

Edit Category 'Position 1'

Back Save Category Save And Continue Edit

Category information

Category \* Build Your Own

Position \* 1

Images

Image	Base Image	Action
 <input type="button" value="Chọn tệp"/> Không có tệp nào được chọn	<input type="radio"/>	<input type="button" value="X"/>
 <input type="button" value="Chọn tệp"/> Không có tệp nào được chọn	<input type="radio"/>	<input type="button" value="X"/>

Recommended size: 354 x 354

Add Image

- **Category:** Choose the category you want to show on homepage at this position. It's taken from your existing categories.
- **Position:** 1 ( you can't change it)
- **Images:** The images shown in this position. They will slide in turn.
- **Base image:** the first image shown at this position.  
Remember to save all the changes

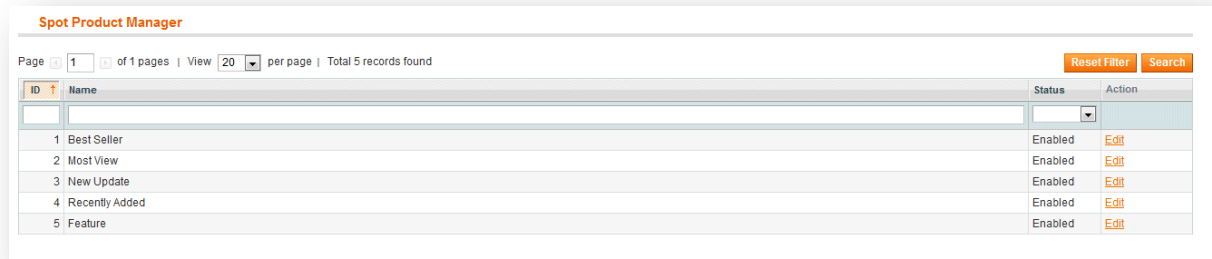

### 3.2. Manage Spot Products

Spot products are the ones you want to highlight of other products in store. There are up to 5 spot product groups shown on the homepage: **Best seller, Most viewed, Newly updated, Recently added and Featured Product.**

These groups will slide as below

To configure, go to **SimiCart Connector -> Matrix theme - > Manage Spot Products**.

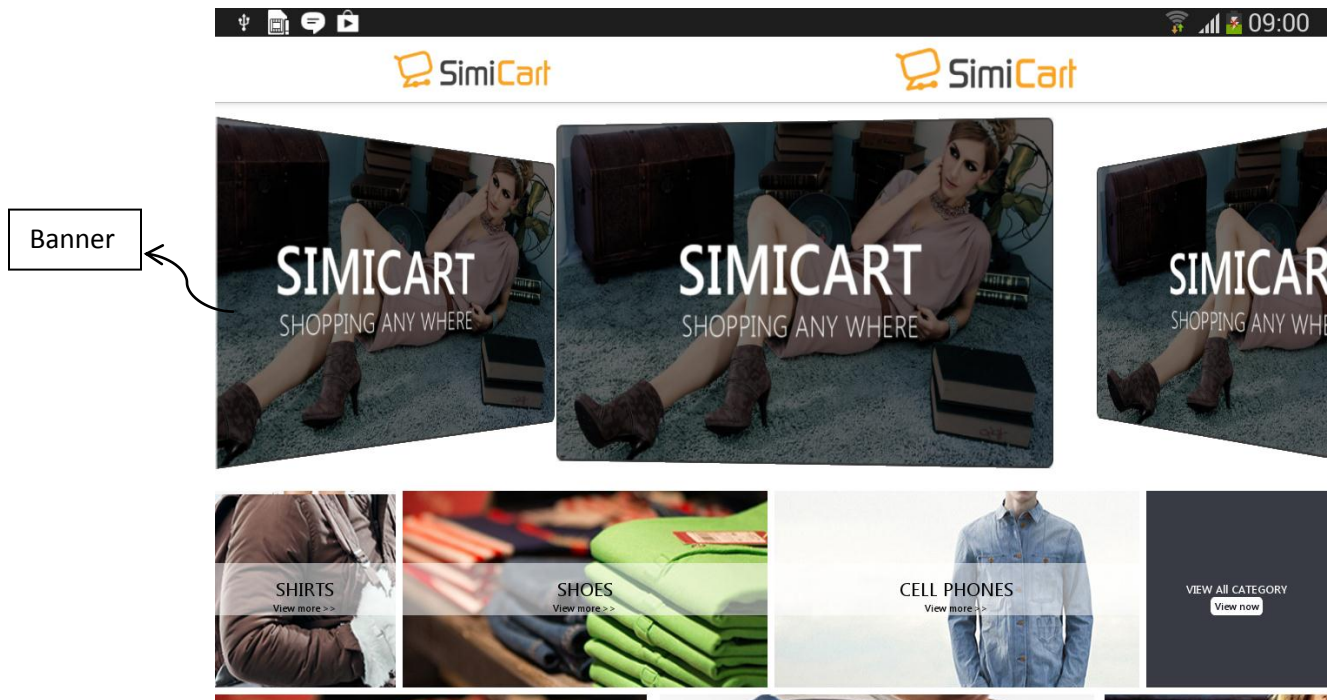

Click onto the spot products you want to edit:

- **Name:** Name the spot products as you prefer. But items in this group are set default by its name.  
For example, in **Best seller** group, you can name it as “Highly recommended” or whatever you want but the items will be taken from Best seller group, which is set by default Magento.
- **Position:** The place you want this group to be shown on homepage
- **Max product is loaded:** total products to be loaded in this group when customers tap on.
- **Images for Phone/ Images for Tablet:** As the image size is different, there will be images for mobile Phone and for Tablet separately.

### 3.3. Manage Banner

- Banner will be shown on the top of the homepage in the app. You can add as many banners as you want. They will slide in turn.

To configure, go to **SimiCart connector -> Matrix theme -> Manage banners**

**Banner Manager** Add Banner

Export to: CSV Export Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected

	ID	Title	URL	Website	Status	Action
Any						
<input type="checkbox"/>	1	Banner1	https://google.com	All	Enabled	<a href="#">Edit</a>
<input type="checkbox"/>	2	Banner2	https://facebook.com	All	Enabled	<a href="#">Edit</a>

To add/ edit a banner, click on button Add a banner/ Edit

The screenshot shows a web interface for editing a banner. At the top, there's a title bar 'Edit Banner 'Banner1'' and a row of buttons: 'Back', 'Reset', 'Delete Banner', 'Save Banner', and 'Save And Continue Edit'. Below this is a section titled 'Banner information'. It contains several fields: 'Choose website' with a dropdown menu set to 'All'; 'Title' with a text input field containing 'Banner1'; 'Image' with a label '(width:640px, height:180px)', a small image icon, a 'Duyệt...' button, and the text 'Chưa chọn tệp tin.'; a 'Delete Image' button; 'Url' with a text input field containing 'https://google.com'; and 'Status' with a dropdown menu set to 'Enabled'.

- **Website:** Is set default for All website
- **Title:** Name your banner
- **Images:** Image to show on banner.
- **URL:** Link URL customers are directed to when they tap on the banner
- **Status:** **Enable** or **Disable** the banner
